"As providers, we are a small flash in patients’ lives. When I link my patients to community evidence-based programs, they gain valuable tools and resources to make sustainable lifestyle changes."

Dr. Michelle Mosher, right, Winthrop Family Medicine with Diabetes Prevention Program participant Roxcie Tufts

Refer your patients through the EHR, fax (861-5258) or phone (872-4102).

This message is brought to you by Partnership to Improve Community Health
This work is supported by Partnerships to Improve Community Health (PICH), a program of the US Centers for Disease Control & Prevention, division of Community Health. PICH supports local partnerships and activities that build capacity and implement community-level strategies to address the greatest predictors of chronic disease.

For more information about this project please contact Natalie Morse, PI & Director of the Center for Prevention and Healthy Living at natalie.morse@mainegeneral.org OR

Laura Robbins, PICH Grant Program Director at laura.robbins@mainegeneral.org
